

The Elk and Deer hunting is underway, Halloween and cooler weather is upon us. Let's keep our children and grandchildren safe by double checking their candy to make sure it is safe.

Remember we have the NFL Ticket so let your friends know, bring them down sign them in and have some good conversation and make a touch down signing them up as a member helping to strengthen our Lodge. Sign up 2 new members LOOM or WOTM and your dues are paid for the year.

Remember, this is your Lodge and we all have a say in what goes on around the Lodge. Please do not air your complaints in the Social Quarters, but please come join in the Lodge meetings, voice your ideas, thoughts and then help implement the solutions in making our Lodge better.

Please also remember there is a suggestion box next to the front door. Please give us your thoughts, ideas, be willing to take them on and by all means any complaints you might have. All complaints must be followed with a solution to the problem or puzzle.

Thanks to Bruce (Griff) Griffey, Terry Wollgast and John Brown for getting the flag pole completed and flying again.

Again, a super thanks to all our volunteers who help on Thursday night as well as keeping the Lodge functions together.

And your Governor Robert Barrett has asked all the Officers, both LOOM and WOTM, as well as the General Membership to start participating a little more by taking just a couple hours a week in helping with existing functions even planning as well as working a new function. This would make a huge difference with the viability of the Lodge.

Let us take a few minutes of silence for our departed brother Steve Bell who is watching over the Lodge as we move forward.

Thanks.
